

E-911 Update

Steve Marzolf, E-911 Coordinator
Virginia Division of Public Safety Communications
www.va911.org
smarzolf@ntp.state.va.us

Local Issue

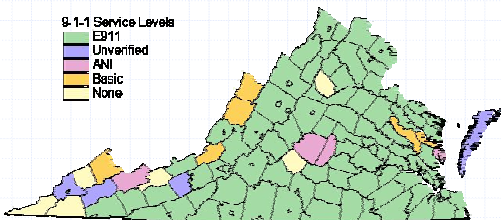

- ◆ Provision of E-911 is a local issue.
- ◆ 113 localities provide wireline E-911.
- ◆ 21 localities do not have wireline E-911.
- ◆ Wireless Board and DPSC provide funding and technical support when asked.
- ◆ Timing, priority, and effort must come from the locality.

Funding Provided

FY	PSAPs	Localities Served	PSAP Funding
2000	23	23	\$6,186,607
2001	40	50	\$8,547,064
2002	83	92	\$17,722,676
2003	125	131	\$22,564,509
2004	116	121	\$18,978,045

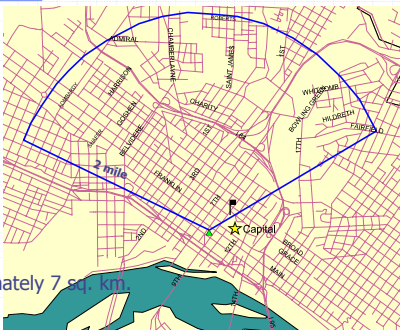

Total provided to date: \$58.5 million

Wireless Enhanced 9-1-1

- ◆ Phase 0
 - Locality taking the call typically on a dedicated seven-digit line.
- ◆ Phase I
 - Call is routed through the 9-1-1 system based on the cell site/sector receiving the call and provides the cell site information and call back number.
- ◆ Phase II
 - Same routing as Phase I, but latitude/longitude is provided within acceptable error rate.

Phase I Accuracy

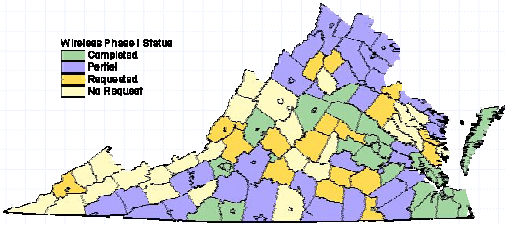

Approximately 7 sq. km.

Wireless Phase I Status

Wireless Phase I Status

- Completed
- Partial
- Requested
- No Request

- ◆ 34 localities deployed with all providers.
- ◆ 52 have implemented with at least one.

Phase II - Technology

- ◆ Handset based solution
 - GPS
- ◆ Network based solution
 - Time Distance of Arrival
 - Angle of Arrival
 - Signal Pattern Matching

Phase II - Accuracy

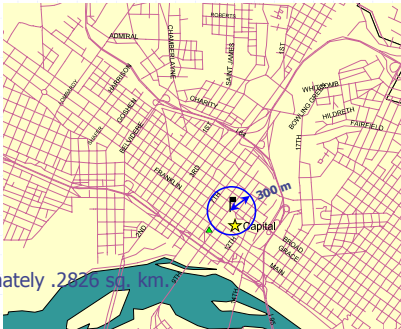

- ◆ Handset Based Solution
 - 50 meters / 67% of the calls
 - 150 meters / 95% of the calls
- ◆ Network Based Solution
 - 100 meters / 67% of the calls
 - 300 meters / 95% of the calls

Phase II – Handset 67%

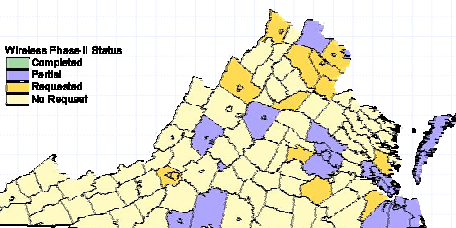

Approximately .00785 sq. km

Phase II – Network 95%

Approximately .2826 sq. km

Wireless Phase II Status

Project Management

- ◆ \$32K maximum cost recovery for project management for each Phase.
 - 40 hours per month for 8 months @ 100/hour
- ◆ Full cost recovery for regional project management efforts.
 - Consultant selected by Region
 - Invoiced through DPSC
 - Five contiguous localities as minimum to form a region

9-1-1 Network Design

- ◆ 22 - 9-1-1 switches.
- ◆ No ability to transfer between switches.
- ◆ Wireless 9-1-1 Fund does not support the existing network.
- ◆ Task force has been formed.
- ◆ Redesign project in process.
